PROFESSIONAL SUMMARY

Recent BCA graduate with a strong foundation in Python, SQL, HTML, CSS, JavaScript, and React.js. Completed academic projects in full-stack web development and AI-based applications, gaining hands-on experience in designing and developing responsive web applications. Eager to leverage analytical problem-solving skills and a passion for learning to build innovative software solutions and contribute effectively in a dynamic IT environment.

EXPERIENCE

Robowaves Company Pvt. Ltd.

Feb 2026 – Apr 2026 | Bangalore

Python Full Stack Development with Data Analysis Intern

- Developed Python/Django web applications with integrated database systems, improving backend data handling and API functionality.
- Collaborated on full-stack development by implementing frontend interfaces and backend logic using Python, JavaScript, and Django.
- Deployed and tested software applications in a production environment, gaining hands-on exposure to the full development lifecycle.
- Collaborated with senior engineers to troubleshoot complex production issues, analyzing system logs to identify root causes and implement effective fixes.

CERTIFICATIONS & LANGUAGES

Python Full Stack Development | SQL | Data Analysis, QSpiders

feb 2026 - feb 2027

SKILLS

Python, JavaScript, HTML5, CSS3, Flask, SQL, MySQL, Pandas, NumPy, OpenCV, Scikit-learn, Vision Transformer (ViT), Django, NLP, TF-IDF, VADER, SVM, Logistic Regression, Random Forest, Decision Tree, KNN, Tweepy, NLTK, Matplotlib

PROJECTS

Real-Time Sentiment Analysis on Movie Recommendation

- Built NLP pipeline using Twitter data, TF-IDF and VADER.
- Compared SVM, Logistic Regression, Random Forest, Decision Tree and KNN.
- Tools: Python, Tweepy, Pandas, NLTK, Scikit-learn, Matplotlib.

Real-Time Face Mask Detection System

- Developed Flask web app using OpenCV and Vision Transformer (ViT).
- Achieved 99.5% detection accuracy with real-time webcam support.

LANGUAGES

English, Kannada, Hindi
